

WE ARE HIRING

ASSOCIATE OR FULL PROFESSOR

Join the growing team of Vector-borne disease researchers & clinicians within the newly formed SUNY Center for Vector-Borne diseases

State University of New York (SUNY) Upstate Medical University (UMU) seeks an internationally recognized expert in tick-borne diseases to apply for an Associate or Full Professor of Empire Innovation position (EIP) as part of the New York State Empire Innovation Scholar Program.

The position offers a highly competitive hard-money state-line salaries and a generous start-up package supplemented by contributions from the New York State Empire Innovation fund.

The successful candidate will join a growing team of collaborative and interdisciplinary infectious disease researchers within the newly established SUNY Center for vector-borne diseases, organizationally housed within the UMU Institute for Global Health and Translational Sciences (IGHTS).

The faculty member will have access to the unique, integrated basic-clinical science research environment at IGHTS (<https://www.upstate.edu/globalhealth/>) and the robust research core facilities, including the newly built state-of-the-art BSL-3 insectary and vivarium (BSL-3, ABSL-3, and ACL-3).
