

## **Postdoctoral position in the Voth laboratory at UAMS**

A postdoctoral position is available at the University of Arkansas for Medical Sciences in the Department of Microbiology and Immunology (<https://mbim.uams.edu/>) for an individual with a background in molecular biology, cell biology, biochemistry, or microbiology. This individual will use a combination of *in vitro* approaches to characterize infection of primary human lung tissue and cells by the intracellular bacterial pathogen *Coxiella burnetii*. The fellow will also receive training in biosafety level-3 containment. This fellow will be involved in manuscript and grant proposal preparation and training students. Salary for this position will be based on experience and the position is available immediately. Candidates must hold a Ph.D. degree and should send their curriculum vitae and contact information for three references to Dr. Daniel E. Voth ([dvoth@uams.edu](mailto:dvoth@uams.edu)). Candidates must also apply at <http://jobs.uams.edu/>.
